

Sport-AR

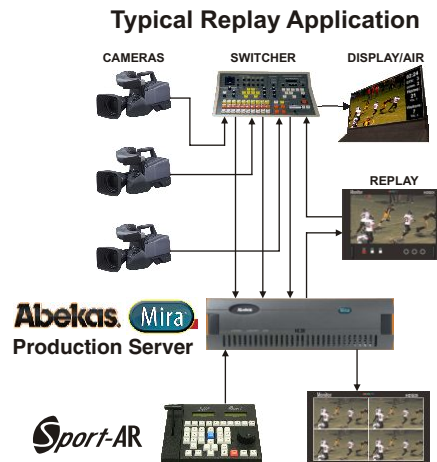

Multi Angle Replay Controller

Uses: High performance slow motion instant replay

- High performance controller for Abekas Mira Production Server
- Excellent quality 10-bit HD video at up to 200mb/s JPEG2000
- Three to six camera angles - dissolve transitions
- Always recording - never miss action while replaying
- Fast & intuitive operation - short learning curve like standard Sport
- New “Variable Mark Backtiming” eliminates need for cue trimming
- Live switching between cameras with perfect synch - even in slow motion
- Effortless multi camera angle highlights creation and playback
- Create meltdowns from highlights in any format
- Single button cue point recall for instant access to spots, intros, & bumpers
- “Bump In/Out” feature sandwiches replays between bumper clips
- Hot swap RAID-6 media protection and dual redundant power supplies

PERFECT FOR MULTI CAMERA HD INSTANT REPLAY
